

BMC *Live!* for BMC Control-M Migration Services

Move your organization's workload automation and job scheduling capabilities to BMC's Control-M Workload Automation Suite

OFFERING DESCRIPTION

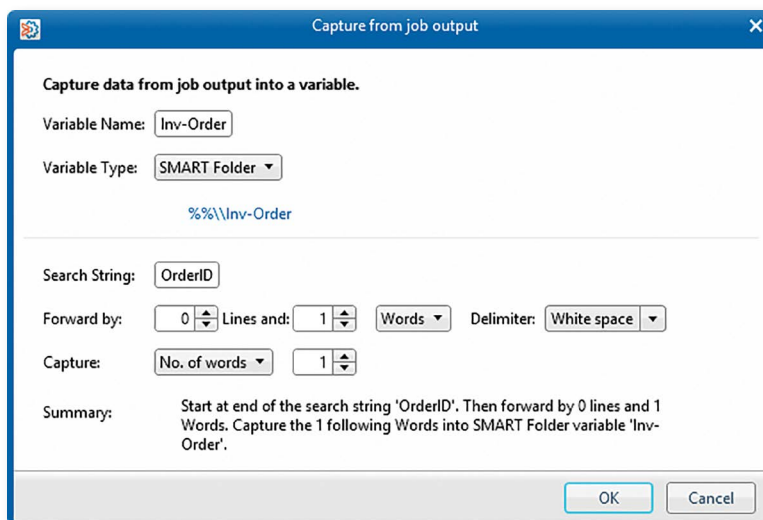

BMC *Live!* for Control-M Migration Services is offered by BMC Consulting Services to assist you in migrating your current job definitions and schedules with a proven and prescriptive approach. BMC offers both comprehensive services and advisory services to suit your needs and budget.

BUSINESS CHALLENGE

In order to achieve the full business and IT benefits of the BMC Workload Automation Suite, you must move your current job definitions and schedules from one or more schedulers currently employed in your environment. **Most IT organizations don't have the expertise or the resources to focus on the planning, installation, and comprehensive testing** necessary to ensure a successful migration.

BMC SOLUTION

BMC *Live!* for BMC Control-M Migration Services is designed to **mitigate risk, expedite return on investment, and optimize overall solution performance**. BMC understands that your batch environment is critical to your business, and our BMC experts are accustomed to this rigorous, highly scrutinized environment. BMC has a strong track record of success across all industries. Our experience will allow you to minimize your interim risk and achieve higher levels of success.

Capture from job output

Capture data from job output into a variable.

Variable Name:

Variable Type:

`%%\Inv-Order`

Search String:

Forward by: Lines and: Words Delimiter:

Capture:

Summary: Start at end of the search string 'OrderID'. Then forward by 0 lines and 1 Words. Capture the 1 following Words into SMART Folder variable 'Inv-Order'.

KEY FEATURES

BMC *Live!* for BMC Control-M Migration Services provides a comprehensive migration approach.

- **Comprehensive project planning** and knowledge transfer
- **Full infrastructure installation**, deployment, and process migration
- **Migration of product elements**, validation, and adjustment of converted workload
- **Parallel testing** and production workload activation

KEY BENEFITS

- **Mitigate risk** associated with scheduled job execution by leveraging proven and repeatable best practices
- **Enable** staff members to focus on key daily initiatives rather than specialized tasks
- **Ensure** maximum solution investment through proper migration and verification
- **Speed** solution deployment based on standardized processes – providing a better return on IT investment

- ◀ The capture from job output functionality searches job output for text to be extracted and shared between multiple jobs.

OFFERING DETAILS

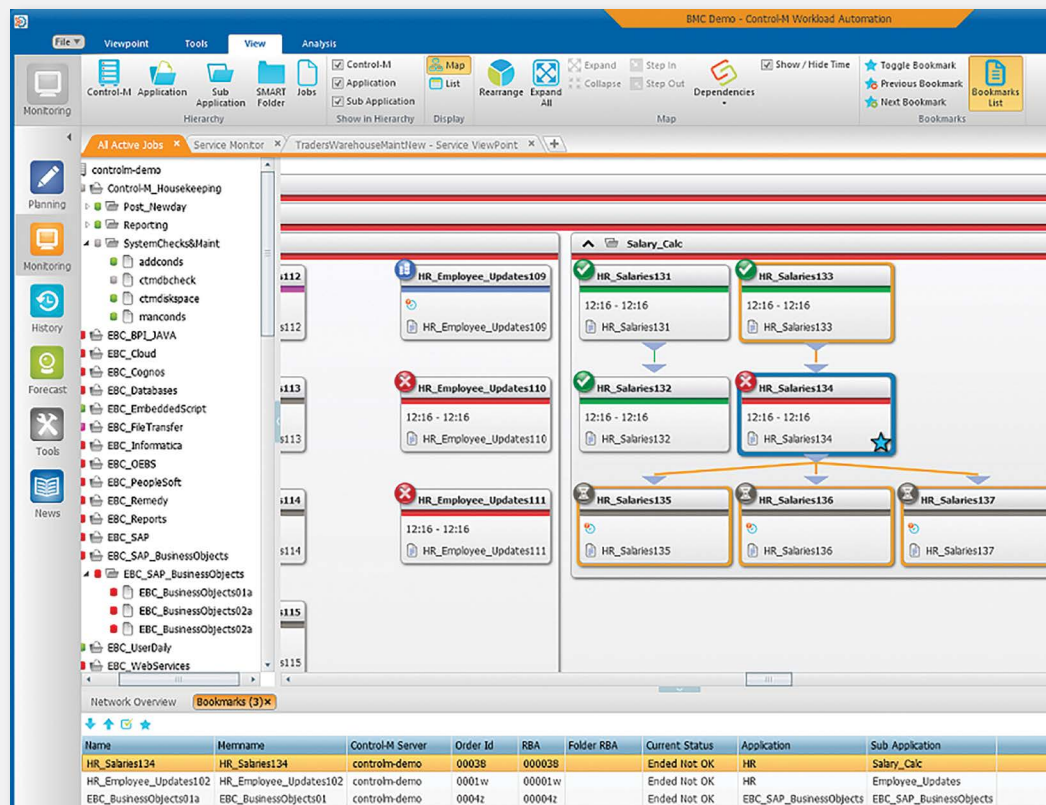

Comprehensive Migration Service – BMC experts lead all of the primary project phases and supply resources to execute a majority of the project tasks. Key activities include solution design workshops, product installation, configuration, environment migrations, execution validation, parallel testing, production transition, and comprehensive knowledge transfer.

Advisory Migration Service – For customers who require only expert coaching and support, BMC provides advisory services designed to enable and empower you to execute the majority of the most labor-intensive tasks. This includes BMC supported planning, architecting, product installation, and preliminary migration activities, as well as onsite support at strategic times during the remainder of the project.

Education Services – BMC's approach to education is holistic, not only focusing on the foundations of BMC technology, process, and people but also offering a best-practice approach based on our global experience. For Control-M education, [visit us on the web.](#)
