BMC AMI Console Management for zEnterprise®

Minimizes downtime, mitigates risk, and reduces costs by providing secure access, shared console sessions across networks, message consolidation, and robust controls to manage and automate IBM® z Systems® consoles.

Reduce costs
- Eliminate hardware required for multiple system consoles
- Use less floor space
- Lower your cooling and environmental costs

We are able to construct automation solutions that save us time, money, and personnel.
Systems Programmer, State & Local Government

Mitigate risk
- Continuously monitor your systems, even during mainframe downtime
- Resolve problems collaboratively across locations and skillsets
- Provide secure, remote access with audit logging

The benefit is the stability, consistency, and auditability that the product has brought to our operations.
Senior IT Architect, Large Insurance Company

Improve productivity and availability
- Provide consolidated views of all systems in one viewer
- Increase application uptime with quicker initial program loads (IPL)
- Use REST APIs to perform automation remotely

The IPLs are quicker, our maintenance windows are always compressed, allowing us to get our business systems back up and available for our customers.
Senior IT Architect, Large Insurance Company

Bridge the knowledge gap
- Pool knowledge and reduce errors with shared sessions and peer review capabilities
- Offer a modern user experience on desktops or tablets
- Provide rules-based automation, with no coding required

The benefit is the stability, consistency, and auditability that the product has brought to our operations.
Senior IT Architect, Large Insurance Company

About BMC
BMC delivers software, services, and expertise to help more than 10,000 customers, including 92% of the Forbes Global 100, meet escalating digital demands and maximize IT innovation.
