- » Patching
- » Software license compliance
- » MyApps
- » Remote control
- » Power management
- » Device management
- » IT Policy compliance
- » Event management
- » Financial asset management

BMC SOFTWARE. IT'S AMAZING WHAT IT WAS MEANT TO BE.

BMC Software helps leading companies around the world put technology at the forefront of business transformation, improving the delivery and consumption of digital services. From mainframe to cloud to mobile, BMC delivers innovative IT management solutions that have enabled more than 15,000 customers to leverage complex technology into extraordinary business performance—increasing their agility and exceeding anything they previously thought possible.

Overview

BMC Client Management OnDemand is delivered as subscription-based software as a service. Now you can manage your client devices anywhere, anytime. BMC provides you with the best cloud, mobile, and social solutions for managing today's consumerized enterprise IT.

Simple

BMC delivers a cloud-based IT asset/client management solution that's easy to buy, deploy, use and manage:

- » Online demo lets you evaluate applications before you buy
- » Automate discovery of all devices across your network (agent and agent-less)
- » Subscription based solution is available anywhere, anytime
- » Seamless upgrades eliminate disruptions to your IT operations

Modern

Employees and executives expect new applications to succeed:

- » Publish pre-approved software to users' desktops for one-click deployment
- » Integrate with your BMC Service Desk: Remedyforce (direct); RemedyOnDemand (via Atrium CMDB)
- » Lower power bills & reduce your energy footprint with granular power management settings
- » Dashboards and analytics provide near real-time insight for system currency and software license use
- » Leverage Instant Expert and wizards to quickly configure device management and deployments

Scalable

As you grow, BMC Client OnDemand grows with you:

- » Your solution is deployed and managed in the BMC Software's global cloud.
- » Solution can grow to manage all client devices including Windows, Linux and Mac
- » Leverage rules based engine with no coding or scripting needed for most common tasks
Secure

BMC Client Management OnDemand reduces your risk of non-compliance and financial exposure:

- » Minimize software vulnerabilities with set-it-and-forget-it patching
- » Detect, diagnose and resolve PC issues remotely with secure tunneling (no VPN required)
- » Control your software deployment and usage against entitlements to avoid a failed audit
- » BMC brings you more than 10 years of IT Client Management leadership
