

BMC Helix Remedy

Realize 304% ROI, 30% increase in productivity, and 75% reduction in time to resolve

PRODUCT DESCRIPTION

Helix Remedy is a powerful, industry leading service management platform and fueling your IT transformation with intelligent, people-centric user experiences that helps you work smarter. Helix Remedy is delivered in the cloud for unprecedented choice along with hybrid or on-premise options.

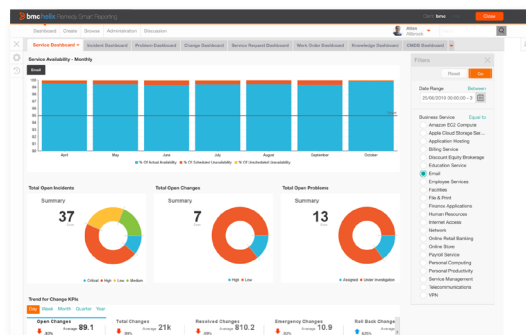

BUSINESS CHALLENGE

Today's Service Management is human-driven and highly resource intensive. ITSM systems and processes are still manual, inaccurate, and slow, resulting in higher costs and lower productivity. Enterprise companies are migrating workloads to the cloud in order to spend less time on upgrades and achieve the flexibility to add compute power on demand. Companies expect easy and successful migration with reduced time and effort of upgrades by significant amounts. They also want to cut costs but be able to have the power to scale elastically.

Service Management as a category is being disrupted by technologies like artificial intelligence (AI) and machine learning (ML), chatbots, virtual agents, and the Internet of Things (IoT), which are all driving dramatic changes in how enterprises provide services in the future. Savvy business leaders are jumping in headfirst and applying these technologies to solve real business challenges and get a competitive edge in the market.

BMC SOLUTION

BMC Helix Remedy fuels your IT transformation with intelligent, people-centric user experiences that helps you work smarter. Delivered in the cloud for unprecedented choice or hybrid or on-premise options – the decision is yours.

KEY FEATURES

Helix Remedy delivers predictive ITSM across multi-cloud environments
