

## Control-M Workload Automation plug-ins for Informatica and IBM Cognos

Version 8.0.00

October 15, 2013

Patch PAZVO.8.0.00.100

BMC Software is announcing the release of new job property forms for the following Application Plug-ins that support the look and feel of the Control-M Workload Automation version 8.0.00 user interface.

- Control-M for Informatica version 7.0.00.005
- Control-M for IBM Cognos version 7.0.00

If you have any questions about this patch, please contact BMC Software Customer Support at 800 537 1813 (United States or Canada) or call your local support center.

## Product distribution

The following procedures describe how to obtain the installation files for this patch using FTP, or the BMC Sales Representative:

- “Obtaining installation files through FTP” on page 1
- “Obtaining installation files through the BMC sales representative” on page 2

## Obtaining installation files through FTP

This procedure describes how to obtain the patch installation files through FTP.

### To obtain installation files through FTP:

Download **PAZVO.8.0.00.100\_windows.zip** from [ftp://ftp.bmc.com/pub/control-m/opensystem/Control-M\\_Application\\_Plug-ins/PAZVO.8.0.00.100](ftp://ftp.bmc.com/pub/control-m/opensystem/Control-M_Application_Plug-ins/PAZVO.8.0.00.100) into a temporary directory.

## Obtaining installation files through the BMC sales representative

This procedure describes how to obtain the Control-M for Workload Automation plug-ins for Informatica and IBM Cognos patch installation files through the BMC sales representative.

### To obtain installation files through the BMC Sales representative:

Contact information is available on the BMC website (see <http://www.bmc.com/corporate/contacts-location>)

## Installing patch PAZVO.8.0.00.100 on Windows

This procedure describes how to install patch PAZVO.8.0.00.100 on a Windows computer.

### To install the patch:

- 1 Close the following applications:
  - Control-M Workload Automation client
  - Control-M Configuration Manager
- 2 Navigate to the temporary directory that you created in “[Product distribution.](#)”
- 3 Extract the downloaded .zip file, from one of the options referred to in “[Product distribution,](#)” into the temporary directory.
- 4 Run the **EM.exe** file and unzip the files to the same directory.
- 5 Double-click the **EM** directory and run the following script:

```
Install_EM_Client_Plugins.cmd
```

# Where to get the latest product information

To view the latest BMC documents, see the Support Central website at <http://www.bmc.com/support>. Notices such as flashes, technical bulletins, and release notes are available on the website. You can subscribe to proactive alerts to receive e-mail messages when notices are issued or updated. For more information about proactive alerts, see the Support Central website.
