

BMC AMI Security Administrator

Fast and Intuitive IBM® RACF® Administration from a Web Browser

BMC AMI Security Administrator requires no mainframe expertise or specialist skills. Liberating helpdesk teams and simplifying the RACF User/Group Admin workload, it provides a return on investment based on improved speed, efficiency, productivity, and accuracy. Browser-based so you can use the solution securely on any device from anywhere, BMC AMI Security Administrator is truly in the cloud.

HOW YOU BENEFIT

Replace your IBM mainframe green screen with an intuitive browser-based solution.

- A smoother and more friendly user experience for RACF administration
- No need for expensive mainframe expertise and resources to administer basic RACF functions
- Functionally superior interface means faster and more efficient task throughput
- Save time and costs: one interface replicates commands across multiple RACF databases, removing the need for administrators to log on to multiple Time Sharing Options (TSO) or IBM® CICS® systems
- Secure: all data is exchanged with the mainframe using a secure HTTPS link, while built-in security profiles restrict features to specific administrators
- Governance and audit: full audit log of all RACF changes made is viewable online and downloadable

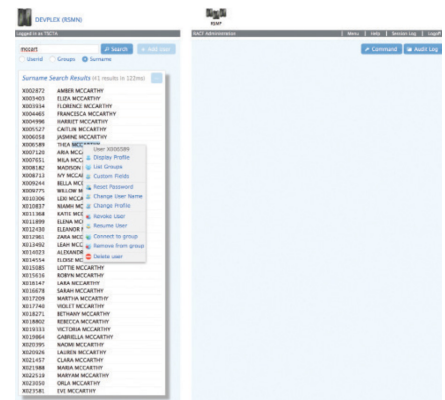

GET SMART

BMC AMI Security Administrator is a more intelligent way to:

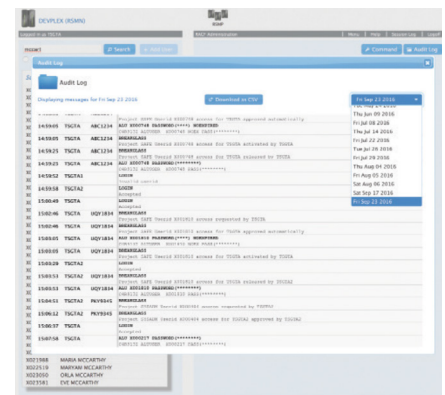

- Search users – quickly find users on the system by their last name or user ID
- Manage users – add new users, display and update user profiles, revoke or resume users, change username and password, add/remove users from groups, update user custom fields, remove users
- Manage groups – display a group profile, list all users of a group, connect or remove users, remove multiple users, update group custom fields
- Manage multiple RACF databases – replicate changes across multiple RACF databases anywhere in your enterprise
- Issue any RACF command quickly and easily

WHY BMC MAINFRAME SERVICES BY RSM PARTNERS?

We are a unique provider of mainframe expertise, software, and services—100 percent focused on the IBM® System z® marketplace. Working with many of the world's largest organizations—spanning financial, retail, utility, government, and service organizations—no other partner can offer you the same mix of z knowledge, hands-on experience, reliability, flexibility, and agility. We are proven to add value.
